...

****Key Improvements and Explanations:****

* **Clear Structure:** Uses Markdown headings (`##`) to organize the results, making it easy to scan.

* **Consistent Formatting:** Each job listing has the same format (Title, Link, Snippet) for easy comparison.

* **Hyperlinks:** The links are properly formatted as Markdown hyperlinks, so they are clickable.

* **Concise Snippets:** The snippets are included to provide a quick overview of the job.

* **Readability:** Uses bullet points for listing the job details, which improves readability.
